UPDATED COURSE

This is another fast paced, roll up your sleeves class! Topics include installation, applications, service, and diagnostic techniques for Energy Kinetics' Gas and Oil Family of products and the industry standard components used in this high efficiency equipment.

INSTALL & SERVICE IN ONE DAY

Attendance allows service technicians to become more knowledgeable of the latest Energy Kinetics updates and more confident when installing and servicing our new innovative systems. This course includes live fire demonstrations.

- Q&A on technical aspects of servicing Energy Kinetics multi-fuel systems in the field.
- Learn the latest tips for easy Energy Kinetics installations and how and where to best apply different types of heating systems.

CLASSROOM SETTING

Dynamic classroom interaction and open discussions make every session very rewarding. Technicians will easily maintain interest and attention no matter what their level of experience. And there will be drawings and prize giveaways for participation!

NORA CERTIFICATION

Our seminars qualify for 8 credits of NORA's Continuing Education programs. Bronze, Silver & Gold certification.

BPI CERTIFICATION

We will also certify Building Performance Institute contractors for 4 credits for continuing their education.

TRAINING PROVIDER

SEMINAR CREDITS!

Dealers attending our seminars are also eligible for (2) \$75 Credits (the price of admission). Each credit may be applied when ordering a boiler up to 90 days after their seminar date and taken within plan terms.

Energy Kinetics 2017 Protrain Seminar

Protrain™ Programs

from Energy Kinetics, are fact-filled full day workshops that will help make the attendee more productive in the field. All programs include continental breakfast, a hot lunch and a live fire demo on Energy Kinetics Boilers. Courses at the Lebanon, NJ facility include a manufacturing plant tour. All courses are NORA and BPI certified and include technical manuals, a complimentary diagnostic service board, and free membership in the Housecalls™ update club.

Service Hands-On Course

Highly recommended for new personnel and refresher for experienced personnel. This covers System 2000 basics, standard applications, installation, annual tune-up and troubleshooting. This course reviews established principles that will help in servicing all heating systems - a comprehensive day of interactive learning.
