High Efficiency  
Hands On Seminar

Featuring Accel CS & 90+Resolute

This "Hands-On" training class covers the strongest and most efficient boilers available.

## Pro-Train™ Hands-On Program

Simply the best hands-on training available!

We come to you – small groups will work on Accel CS™ & 90+ Resolute simulators and see live fire boilers right in their areas. And we step it up a notch with live fire units for each group visiting our factory.

Program covers:

- Installation
- Piping, wiring, venting
- Setup & Programming
- Diagnostics
- Tune-Up
- Login Access to Tech dashboard for design and diagnostic videos, guides, installation manuals, and much more!

Catered lunch will be provided

## All New Course Experience Presents:

### Electrical Training

Each attendee receives a multi-meter with a temperature sensor probe. After the hands-on instruction, it's theirs to keep and use in the field!

### Hydronics Training

Applicable to all hydronics systems, including basic piping and system design. *Plus* our “Do it Right Checklist” piping and wiring designs for the best comfort and efficiency!

### Course Materials

This course closely tracks our installation and operation manuals, with supplements for the hydronics and electrical training – an excellent field reference for years to come!
