SMART TANK PIPING SYSTEM

Did you know you can order our Smart Tank Piping, which has the plate heat exchanger, tank piping, circulator, and wiring pre-assembled and leak tested? We've heard this can cut hours off of an installation.

The Smart Tank Piping option is available for \$125 when you buy a heating system with a hot water zone kit and a 40 or 80 gallon tank.

Save time with the tank pre-piped and wired with these components!

Plate Heat Exchanger
Smart Pump piped and wired with Greenfield
Pre-piped copper
"Press" ready make-up water connection
Shipped assembled in hot water tank box

View the Smart Tank Piping video here, or find it by logging into the Heating Professional Webpage under the products tab.
